

# What is it?

- an innovative order picker
- working height 5.35 m
- it can complete a full rotation on its axis
- 80.8 cm wide, 150 cm long
- control panel equipped with a large LCD display showing vehicle status, system operating time and battery status via a charge indicator

# Why choose Sprint?

## EFFICIENT AND VERSATILE

- innovative load deck carries up to 90 kg
- additional material can be loaded on the load deck found on the hood, up to a maximum load of 113 kg
- full battery charge allows the Sprint to run for 28 km
- can move and lift simultaneously
- can easily go through narrow aisles and 80 cm doors

## SURE

- travels up to a maximum of 5 km / h, with the travel speed set at 1.2 km / h when lifting
- the hand sensors and dual foot switches on the platform ensure the correct position of the operator when operating the order picker or using the lifting functions
- safer handling of the goods reduces the risk of falling materials

## DURABLE

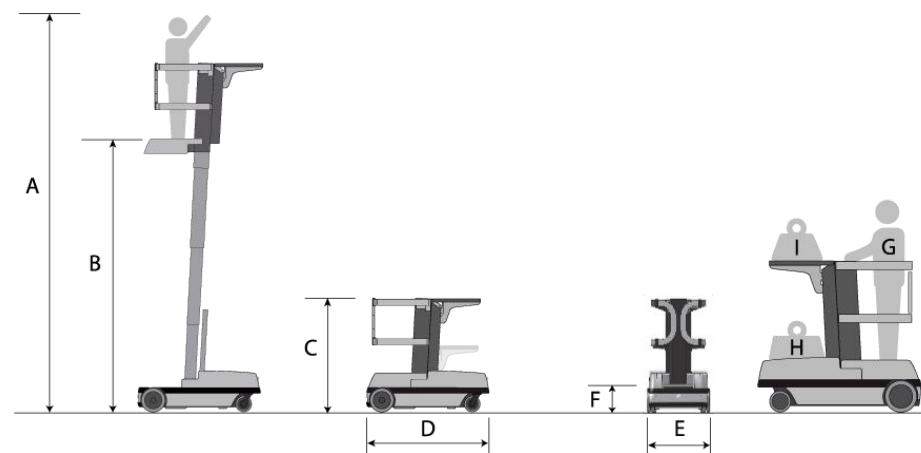

- maintenance-free lifting mast
- high-quality components
- simple yet effective design can be fitted with 100 Ah, 12V AGM batteries that provide a longer work cycle between charges

**"The Sprint is an innovative and versatile order picker that increases productivity and efficiency, offering superior safety."**

## Measurements

A	<b>Platform Height</b>	3350 mm	<b>Unit Weight</b>	660 kg
B	<b>Working Height</b>	5350 mm	<b>Rated Number of Occupants</b>	1
C	<b>Height Stowed</b>	1441 mm	<b>Drive Speed Stowed</b>	5 km/h
