

SAFETY WORK PLATFORM

Turn your forklift into an aerial work platform and safely go where scissor lifts can't with a Star Industries Safety Work Platform. The expanded metal deck provides a wider work platform than boom lifts and the 1,000 lbs platform load capacity and full perimeter guardrail system offers superior safety.

- ➔ Reach over obstructions and access places where scissor lifts can't
- ➔ Faster and cheaper than scaffold
- ➔ Self-closing gates, rigid modular guardrails and lanyard tie down points for increased operator safety

PRODUCT OPTIONS

FEATURES

- Strong and rigid modular component guardrail eliminates loose movement and allows for easy replacement of individual guardrails should damage occur
- Guardrail can be easily removed and laid flat inside platform for transportation
- Spring loaded latches and spring hinges means gates automatically close for increased safety
- Expanded metal deck with 1,000 lbs platform capacity provides safe work area
- Universal 'slip-on-the-forks' for easy attachment. Suitable for both extended reach and straight mast forklifts with a 48" or wider carriage and 48" long forks. Accepts forks up to 7" wide and 2¾" thick
- Quick-Tach option available (forklift must have quick-tach connector). Always use if forklift is equipped with forks longer than 48"
- Optional 42' wide x 84" tall mast protection screen (model 1250) protects operator from forklift mast moving parts
- Meets/exceeds ANSI standards
